Theron supports the European Bailout Protection Act

Peter Theron, candidate for Wisconsin's Second Congressional District, supports the European Bailout Protection Act introduced in the House by Congressman Mike Pence (R-IN). As described by Mike Pence, "This legislation would require that countries like Greece cut spending and put their own fiscal house in order, instead of looking to the United States for a bailout."

"At a time when the US government is running record deficits and incurring massive debts, we should not be borrowing still more money just to ship it overseas to bail out a spendthrift foreign government." Theron stated.

"As we saw with TARP and the auto bailouts, giving money to economic failures does not make them successes." Theron continued.

"All that bailouts do is defer the day of reckoning. Unfortunately the cost grows exponentially. So, the longer the solution is postponed, the larger the bill will be." Theron concluded.
